## Interchange Glossary

---

**CAD** - Canadian Dollar

**Contactless**— Formerly known as a *PayPass* transaction - made with a Mastercard® credit card, with a keychain fob or a near-field-communication chip.

**Commercial** - Describes a Mastercard® product used primarily to make purchases for a business.

**Commercial Data Rates** - Refers to additional descriptive data transmitted with a purchase transaction by the merchant to the issuer and may include sales tax and SKU-level descriptions of items or services purchased.

**Consumer** - Describes a Mastercard® product used primarily to make purchases for goods or services for personal use.

**Core** - Refers to a Mastercard® credit card not designated as World or World Elite.

**Domestic** - A transaction initiated at a Canadian merchant by a cardholder using a Mastercard® product issued by a Canadian issuer.

**Electronic** - A transaction authorized and settled electronically by the merchant and when the cardholder is in the store.

**Electronic Product** – An international Mastercard® product that is authorized and settled electronically by the merchant.

**Emerging Sectors** – Merchants with a merchant category code of Real Estate Rentals (6513), and Tax Payments (9311) for any amount. For merchants with a merchant category code of Schools (8211), Colleges and Universities (8220), Schools not elsewhere classified (8299), and Child Care Services (8351), the amount must be greater than \$1,000 (CAD).

**Independent Business Everyday Spend** – Mastercard® created the Independent Business in Everyday Spend Category rate to encourage growth of electronic payment acceptance among everyday spend category sectors - like taxis, bakeries, pet shops, dry-cleaners restaurants, bookstores, dollar stores, parking lots, etc. For a full list of merchant category codes for this rate, please contact your acquirer or processor. In addition to certain merchant categories, Mastercard selected merchant categories with low average tickets, where consumers go on a regular basis, and where there is a high concentration of small independent businesses.

**International** - A transaction initiated at a Canadian merchant by a cardholder using a Mastercard® product issued by a non-Canadian issuer.

**Large Market** – Refers to the following Mastercard® Commercial products: Fleet, Purchasing, Multi or Corporate products.

**Large Ticket** – Refers to a transaction greater than \$10,000 (CAD).

**Refunds/Return Transactions** – Refers to a transaction when a cardholder requests reimbursement for a returned purchase item or service.

**SecureCode®** - Mastercard® SecureCode® is a program supporting cardholder authentication and guaranteed payments over the Internet for Mastercard® and Maestro® transactions.

**Standard** – The default interchange rate. A transaction that does not meet any of the other interchange rate criteria – most frequently it is card not present. Mail order, telephone order and internet transactions are examples.

**USD** - United States Dollar.

**World** - A Mastercard® product carrying the World Mastercard® branding and mandatory requirements, and designed for cardholders who meet certain spending and income requirements.

**World Elite™** - A Mastercard® product carrying the Mastercard® World Elite™ branding and mandatory requirements, and designed for cardholders who meet the highest spending and income requirements.
